Start of Block: Scale questions

E54.1 In this survey, we use scale questions. They allow you to indicate which of two opposing sides you lean toward and how strongly you do so. For example, on a scale from 0 to 10, options 0 or 10 denote strong agreement with one side or the other, while moving more toward the middle of the scale implies weaker agreement with one side or the other. The exact middle suggests indifference or equality between the two sides. To demonstrate that you understand this, please use the following scale to indicate how clear you found these instructions.

- 0: Very unclear (1)
- 1 (2)
- 2 (3)
- 3 (4)
- 4 (5)
- 5 (6)
- 6 (7)
- 7 (8)
- 8 (9)
- 9 (10)
- 10: Very clear (11)

E54.1 Katika utafiti huu, tunatumia maswali yanayobainisha viwango vya maoni yako. Zinakuruhusu kuonyesha ni upande gani kati ya mbili zinazopingana unategemea na jinsi unavyofanya hivyo kwa nguvu. Kwa mfano, kwa kiwango kutoka 0 hadi 10, chaguzi 0 au 10 zinaashiria makubaliano madhubuti na upande mmoja au upande mwingine, wakati kusonga zaidi kuelekea katikati ya kiwango kunamaanisha makubaliano dhaifu na upande mmoja au mwingine. Katikati halisi inaonyesha kutokua na tofauti au usawa kati ya pande hizo mbili. Ili kuonyesha kuwa unaelewa hii, tafadhali tumia kiwango kifuatacho kuonyesha jinsi ulivyopata maagizo haya kwa wazi.

- 0: Si wazi kabisa (1)
- 1 (2)
- 2 (3)
- 3 (4)
- 4 (5)
- 5 (6)
- 6 (7)
- 7 (8)

Start of Block: Slider questions

E235.1 In this survey, we use slider questions. They allow you to indicate which of two opposing sides you lean toward and how strongly you do so. For example, on a scale from 0 to 100, options 0 or 100 denote strong agreement with one side or the other, while moving more toward the middle of the scale implies weaker agreement with one side or the other. The exact middle suggests indifference or equality between the two sides. In order to provide an answer, it is not enough to leave the slider where it is; you must click on the slider at least once or pull it to where you want it. To demonstrate that you understand this, please use the following scale to indicate how clear you found these instructions.

	Very unclear	Very clear
	0	100

E235.1 Katika utafiti huu, tunatumia maswali yanayo jibiwa kwa kutelezesha kidude kwenye kompyuta. Zinakuruhusu kuonyesha ni upande gani kati ya mbili zinazopingana unategemea na jinsi unavyofanya hivyo kwa nguvu. Kwa mfano, kwa kiwango kutoka 0 hadi 100, chaguzi 0 au 100 zinaashiria makubaliano madhubuti na upande mmoja au upande mwingine, wakati kusonga zaidi kuelekea katikati ya kiwango kunamaanisha makubaliano dhaifu na upande mmoja au mwingine. Katikati halisi inaonyesha kutokua na tofauti au usawa kati ya pande hizo mbili. Ili kutoa jibu, haitoshi kuacha kitelezi pale kilipo; lazima ubonyeze kitelezi angalau mara moja au uvute hadi mahali unakotaka. Ili kuonyesha kuwa unaelewa hii, tafadhali tumia kiwango kifuatacho kuonyesha jinsi ulivyopata maagizo haya kwa wazi

	Si wazi kabisa	Ni wazi kabisa

E285.1 This part of the survey included experiments with inaccurate information. The alleged statements by the foreign ministry of Kenya, the United Nations, the World Bank, and/or the World Health Organization, as well as supposed citizen protests and institutional reforms – which we presented to some randomly selected respondents – were fictional. We intend to test if they have any effects on people’s perceptions of the legitimacy of international organizations.

Deception in experiments is a common scientific method, for example, the use of placebos in medical trials. Nonetheless, we would like to apologize for any inconvenience caused. Again, please rest assured that your responses remain entirely anonymous.

E285.1

Sehemu hii ya utafiti ilijumuisha majaribio na habari isiyo sahihi. Maneno yanayodaiwa na wizara ya mambo ya nje ya Kenya, Umoja wa Mataifa, Benki ya Dunia, na / au Shirika la Afya Ulimwenguni, na vile vile maandamano ya raia na mageuzi ya taasisi - ambayo tuliwasilisha kwa wahojiwa waliochaguliwa bila mpangilio - yalikuwa ya uwongo. Tunakusudia kujaribu ikiwa zina athari yoyote kwa maoni ya watu juu ya uhalali wa mashirika ya kimataifa.

Udanganyifu katika majaribio ni njia ya kawaida ya kisayansi, kwa mfano, matumizi ya placebos katika majaribio ya matibabu. Walakini, tungependa kuomba radhi kwa usumbufu wowote uliosababishwa. Tena, tafadhali hakikisha kuwa majibu yako hayabadiliki.

E288.2 The correct answers to the previous questions were: There are five permanent members with special rights to block decisions in the UN Security Council: China, France, Russia, UK, and USA. The vote share system in the World Bank is based on countries' economic contributions and power. The WHO's two biggest funding sources before the current coronavirus pandemic were: contributions by WHO member states and donations by non-governmental organizations.

E288.2
Majibu sahihi kwa maswali yaliyotangulia yalikuwa: Kuna wanachama watano wa kudumu wenye haki maalum za kuzuia maamuzi katika Baraza la Usalama la UN: China, Ufaransa, Urusi, Uingereza, na USA. Mfumo wa kushiriki kura katika Benki ya Dunia unategemea michango ya kiuchumi ya nchi na nguvu. Vyanzo viwili vikubwa vya ufadhili wa WHO kabla ya janga la sasa la korona vilikuwa: michango ya nchi wanachama wa WHO na michango ya mashirika yasiyo ya kiserekali.
